## SKILLS

## Communication

Ronnie has demonstrated strong communication skills through his roles at McDonald's and as a football coach. At McDonald's, he effectively interacted with customers and trained new employees, conveying instructions clearly. As a football coach, he communicated complex techniques to younger students, ensuring they understood and could apply the instructions. He adapts his communication style to different audiences, showcasing his ability to convey information effectively.

## Teamwork

Ronnie excels in teamwork, as shown by his roles at Kentwood Development and during the Charity Bike Ride. At Kentwood, he collaborated with colleagues to complete tasks under strict deadlines, learning the importance of reliability and cooperation. During the Charity Bike Ride, he trained and participated as part of a group, working towards a common goal. These experiences highlight his ability to support and contribute effectively within a team.

## Problem Solving

Ronnie has developed strong problem-solving skills through his academic pursuits and work experiences. His enjoyment of mathematics reflects his ability to tackle complex problems. At a work placement at Shearman and Sterling, he researched forex liabilities and compliance, analysing data to assess investment risks. His participation in the Aquis Exchange investment club involved strategic thinking, leading to his success in a virtual investment challenge. These experiences underscore his methodical approach and ability to devise effective solutions.

## Leadership

Ronnie's leadership abilities are evident from his experiences at McDonald's and as a football coach. At McDonald's, he trained new employees and fostered a supportive work environment. As a football coach, he planned and delivered training sessions, leading by example and motivating younger students. These experiences have honed his ability to lead, inspire, and manage teams successfully.
